

## TAX INFORMATION REPORTING

The Affordable Care Act (ACA): Stay covered with complete 1095-B reporting compliance

### WHAT DOES THE AFFORDABLE CARE ACT MEAN FOR HEALTH INSURANCE COMPANIES?

The Affordable Care Act (ACA) requires that every American citizen and legal resident obtain health insurance, or face a penalty when filing their personal income tax return.

As a result, health insurance companies are required to provide fully insured policy holders with Form 1095-B. This form allows individuals to prove they are in compliance.

### WHAT INFORMATION MUST BE REPORTED?

Health insurance companies must also electronically file copies with the IRS and submit a transmittal Form 1094-B by March 31st.

#### Required 1095-B Information:

- Name and address of primary person insured
- Name and coverage months for each covered individual
- Taxpayer Identification Number for each covered individual (i.e. SSN#)
