

ONESOURCE® PROPERTY TAX

WORKFLOW CENTER MANAGE MORE WITH MORE VISIBILITY

Every day property tax departments are expected to manage more while facing more resource challenges. Portfolios and liabilities increase while the staff stays the same. The solution is ONESOURCE Property Tax workflow center. It enables your department to do more — save money and efficiently manage the property tax process — with more success.

Features and benefits include:

- Document processing tools
- Responsibility rules
- The ability to filter search tasks by type, status, assignee, or due date
- Visibility of future work and pending tasks
- Improved visibility
- Less risk
- Reduced processing costs

Workflow Center is customizable to meet your needs and supports various tools within our solutions. Its responsibility rules and task tracking give visibility to these processes, and tasks can be tracked in grids within the Tax Center and Asset Center. Workflow Center also increases visibility into future work or pending tasks.

ONESOURCE Property Tax supports the process of doing more, with more visibility, more protection, and more processing cost savings.
