ONESOURCE

Determination

Get sales and use tax, VAT, and GST right the first time, every time
ONESOURCE Determination

Get sales and use tax, VAT, and GST right the first time, every time

Stay up to date on changing sales and use tax, GST and VAT rates with ONESOURCE Determination — the most powerful and flexible tax engine for indirect tax and the only patented, end-to-end automated solution on the market. Regardless of your corporation’s size or geographic reach, get the power, flexibility and intelligence you need for all your global tax needs. Know your information is safe and secure in our cloud-based tax engine, making it easy to calculate correct tax amounts and determine your company’s liability faster than ever.

Streamline the entire sales, use and value-added tax process with a cloud-based solution that integrates with leading ERP and financial systems. Automate transaction tax decisions without the headache of managing and maintaining an in-house tax engine or reporting system with the only patented automation solution for indirect tax. Calculate correct tax amounts in milliseconds and easily handle millions of transactions daily for your complete global footprint — including complex markets, such as Brazil, India and the US. Effortlessly navigate the ever-changing tax landscape by letting our global tax research team monitor more than 19,000 global tax jurisdictions in over 190 countries and territories covering sales, use, VAT, GST, prepared food and beverage taxes and excise taxes — all of which get automatically integrated with your business systems in real time. Better manage your tax requirements with control and consistency and gain a complete view of your tax liability from a single, unified, easy to implement system that’s scalable to meet your company’s evolving needs.
What you get with ONESOURCE Determination

**Verified security**
Rest easy knowing your data is secure and protected by up to date ISO 9001 and ISO 27001 certified compliant systems.

**Seamless integration**
Connect to ERP, financial, billing, and e-commerce systems through pre-built and custom integrations.
