

VCSTax

VCSTax was developed by our Georgia-based staff to meet the needs of Georgia tax officials. Our turnkey solution includes all of the features and functionality to maximize your success.

Our Solution for The County

VCSTax provides the functionality to maintain, bill, collect, distribute, and track properties and associated taxes, and includes:

- Assessment management of real property, personal property, mobile homes, minerals, and special assessments
- Combines the ability to perform streamlined basic functions with advanced capabilities, ensuring compliance with Georgia standards, processes, and laws
- Maintains unlimited tax years via effective dating and provides extensive security
- Collection management of real and personal property, mobile homes, timber, heavy equipment, and special property types, such as solid waste, paving, and more
- Provides user-defined tax units and rate, tables, and allows comprehensive searches and inquiries
- Automates mortgage payments, web payments, delinquencies, interest, and penalty calculations
- Tax digest management, tax billing, tax collection cashiering, business revenue, FIFA/levy management, bankruptcy case management, special assessment, and cash basis accounting capabilities
- Continually updated to bring the latest capabilities to tax billing and collection users

Developed Specifically for Georgia Tax Commissioners

- Superior ongoing support
- State-of-the-art software
- Efficient and integrated collection process
- On-demand bill and report printing

Time- and Money-Saving Features

- Users may review reports on screen before executing the next action, rather than printing multiple reports for review
- With VCSTax, your jurisdiction has the ability to print tax bills or receipts in-house rather than outsourcing
- No pre-printed forms are required in the system; all reports and printouts are laser printed on letter-sized paper at a designated network printer

Comprehensive Support Services

Thomson Reuters believes you deserve prompt and accurate responses to your inquiries. Our customer service hotline is staffed by professionals ready to assist you. Our annual support fee includes all phone services without limitation — no surprises, ever. Trained customer support representatives are available at your request, and system engineers are always working to enhance Thomson Reuters solutions and update the application software.

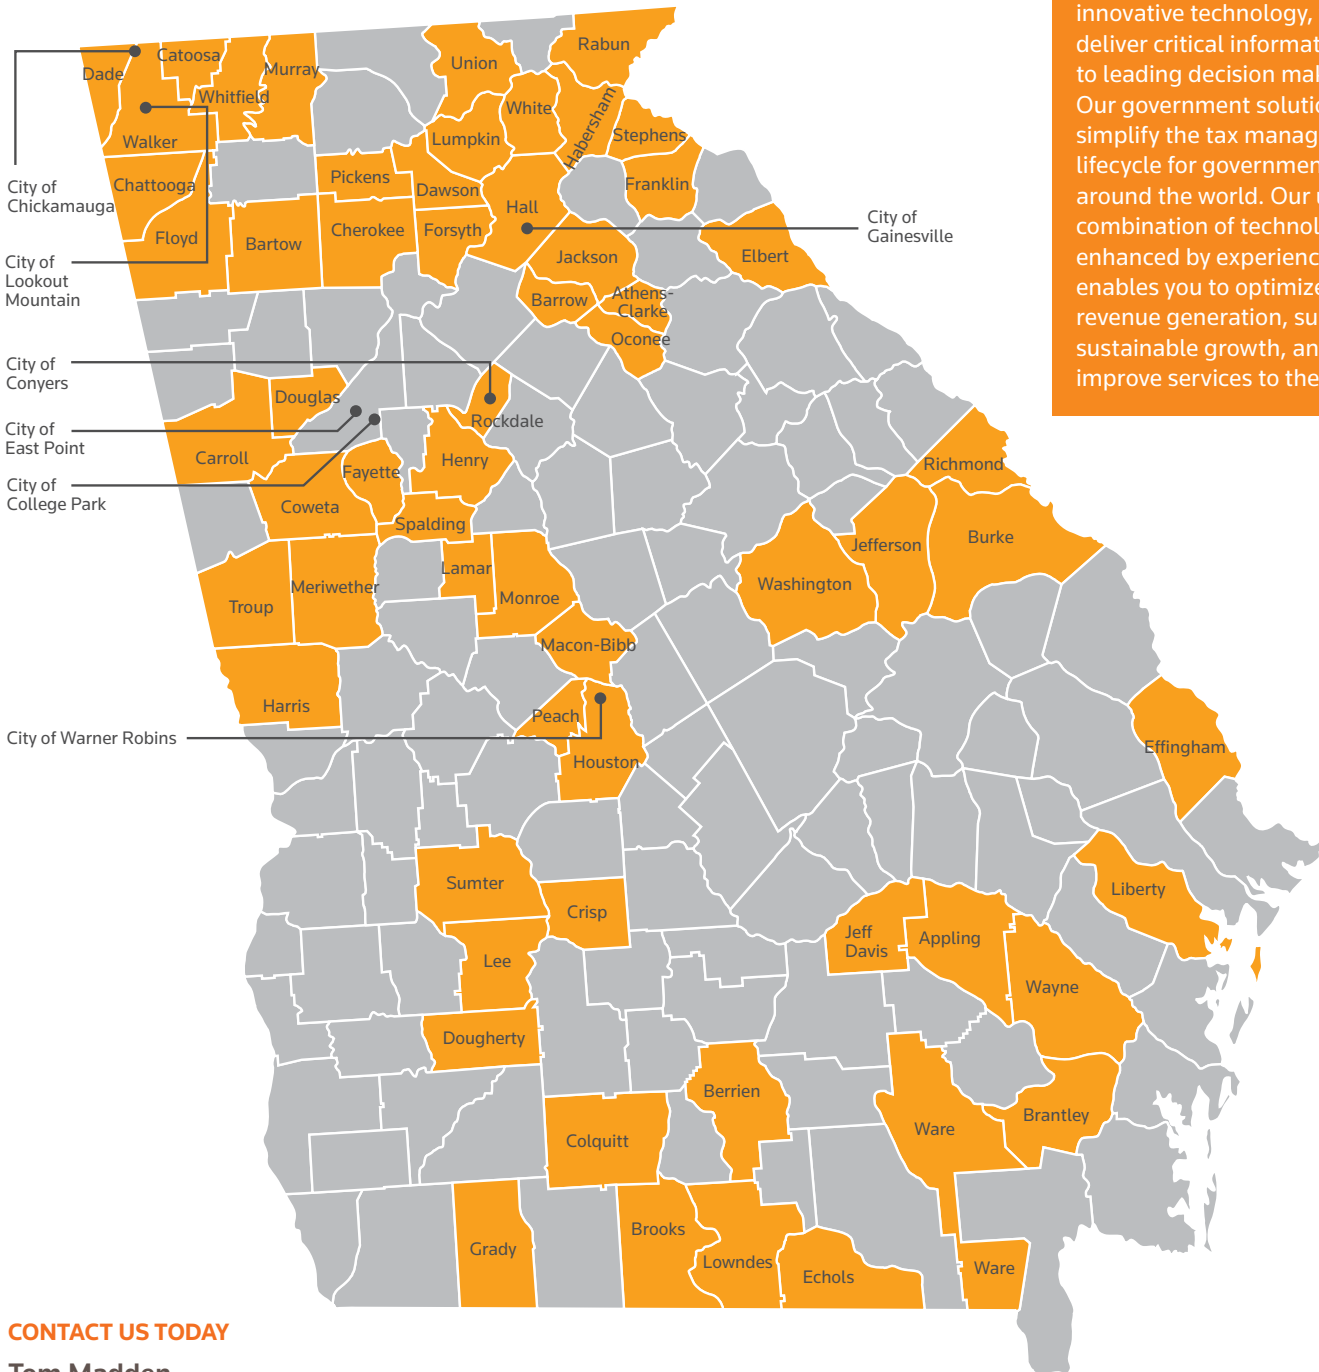

Our Winning Combination

- Leading technology
- Strong Georgia client base
- Proven project methodology

Georgia Experience

Thomson Reuters has extensive real and personal property assessment and tax collection and billing experience in Georgia. Our client list includes 68 Georgia jurisdictions, and our software products successfully produce tax bills for over 1 million parcels throughout the state on an annual basis – no other vendor can match our experience and commitment to Georgia.

Our Georgia clients include:
