

## Fact sheet

# Accounting CS® Bank Feeds

### Connecting you to your clients' financial accounts

With Accounting CS Bank Feeds from Thomson Reuters, you can import bank transactions directly from a client's bank account into Accounting CS. This feature gives accountants like you real-time access to the transactional data that impacts your client's financial accounts.

### Tremendous value for you and your clients

Accounting CS Bank Feeds gives you the time and resources to focus on what matters most to your clients. This feature will:

- Give you an instant full picture of a client's financial position so you can offer more real-time consultation and advice
- Save you time and headaches by reducing the amount of manual data entry and simplifying bank reconciliation
- Allow each of your clients to link an unlimited number of bank accounts to Accounting CS

### Secure information

With Bank Feeds, you never need to know your clients' bank account information or retain it in your systems. Nor do you have to spend precious minutes of your workday reaching out to clients and waiting for updated login information.

### Super affordable pricing

Accounting CS Bank Feeds is included in the price of Accounting CS Client Access. If you're not using Client Access, Accounting CS Bank Feeds costs only \$5 per month per client.
