With Credits and Incentives Pinpointer: Statutory and Discretionary, you can choose from two different search methods:

> Search by jurisdiction

Dynamic search functionality not only helps you perform broad searches by industry or credit type, but also enables you to perform focused searches at the state or federal level.

Advantages:
- Identify federal and state credits that offer maximum tax savings
- Compare credits across multiple jurisdictions — help make informed decisions for business expansion or relocation
- Perform regular 'look-back' reviews — easily keep tabs on your current credits to see if any provisions have changed

> Search by address

Exact location matters when it comes to identifying zone-based tax credits and incentives. The side of the street on which an address is located can impact the incentives available to you or your clients.

Advantages:
- Save time by quickly looking up available zone-based as well as federal and state credits for a specific address
- Review eligibility and compliance requirements including links to detailed explanations and agency websites
- Maximize credits and incentives by identifying tax-saving opportunities for multiple business locations, making sure no credit has been missed

SEARCH BY ADDRESS PROVIDES ALL DETAILS AT A GLANCE

Search by Address to find:
- Zone-based credits
- State and federal credits
- Complete credit details

“Credits and Incentives certainly is a door-opener. I don’t think people realize the amount of state and local tax savings that can be identified as a result of a big Credits and Incentives project by an accounting firm.”

– Dean Uminski, Principal at Crowe Horwath LLC
