

Top 10 reasons to adapt to a remote work environment for your CPA firm

1 In the last 10 years, remote work has grown by 91%.¹

Companies can save up to **\$11k per employee per year** through the reduction of some operating costs including rent, utilities, and supplies.²

2

3 **65% of employees said they are more productive in their home office than at a traditional workplace,** citing fewer distractions and interruptions; less stress from no commute; minimal office politics; and a personalized, quiet environment.¹

4 **54% of employees would change jobs for the option to work remotely.** Working from home flexibility drives staff engagement, which means happier employees, more satisfied clients, and ultimately greater profitability for your firm.³

4

5 **85% of businesses confirmed that productivity increased** in their company because of greater flexibility.¹

6 57% of employees were more likely to be satisfied with their job with the opportunity to work remotely.¹

Remote workers save between \$2k - \$7k on average per year on transportation, commuting time, food, clothing, and childcare.²

8 30% of employees have left a job because it did not offer flexible work options.⁴

Companies allowing remote work have 25% lower employee turnover than those that don't.⁵

10 By 2028, 73% of all departments will have remote workers.⁵

Creating a firm culture that embraces remote accounting work and offers the best virtual tools for employees is a significant benefit. It's no longer just a wish list item for the future, but a reality that can be easily implemented today.

See how Thomson Reuters Tax and Accounting solutions can help your firm transition confidently to a remote working culture.
