

# Why make the switch to cloud-based software?

## Remote work made easy with cloud technology

**Number 1** reason people switch to cloud software is ability to access data anywhere<sup>1</sup>

Workloads being hosted on the cloud increased to **60% in 2020** compared to 45% in 2018<sup>1</sup>

## Don't be the last to adopt!

**90%** of companies already use cloud-based services. For clients, the convenience of cloud-based software is the expectation, not the exception

Workloads being hosted on the cloud are expected to jump to **94% in 2021**, thanks to remote work becoming a new normal<sup>1</sup>

# Why switch to Thomson Reuters® AdvanceFlow?

## Security

Files in **AdvanceFlow** cannot be accessed without login credentials

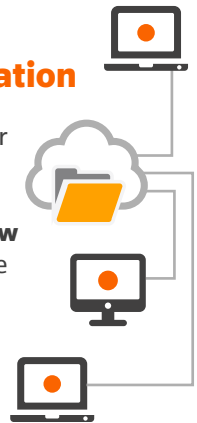

Restrict IP addresses and client lists

# Upgrade your outdated audit software

## Real-time collaboration

Unlike other auditing software, **AdvanceFlow** allows multiple users to access binders and trial balances simultaneously

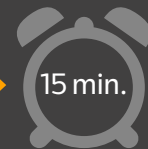

## Speed and efficiency

**AdvanceFlow** processes large trial balances faster than the competition

**Time spent importing a 50,000 line trial balance**

Other auditing software
