

Form 1120 Principal Business Activity Codes—2019 Returns

**Principal Business Activity Codes**

This list of principal business activities and their associated codes is designed to classify an enterprise by the type of activity in which it is engaged to facilitate the administration of the Internal Revenue Code. These principal business activity codes are based on the North American Industry Classification System.

Using the list of activities and codes below, determine from which activity the company derives the

largest percentage of its "total receipts." Total receipts is defined as the sum of gross receipts or sales (page 1, line 1a) plus all other income (page 1, lines 4 through 10). If the company purchases raw materials and supplies them to a subcontractor to produce the finished product, but retains title to the product, the company is considered a manufacturer and must use one of the manufacturing codes (31110–339900).

Once the principal business activity is determined, entries must be made on Form 1120, Schedule K, lines

2a, 2b, and 2c. On line 2a, enter the six-digit code selected from the list below. On line 2b, enter the company's business activity. On line 2c, enter a brief description of the principal product or service of the company.
