

PROPERTY TAX

Software

Property tax professionals across all industries have the same goals: increased control, lower costs and less risk. The challenge is maintaining the multitude of jurisdictional requirements, legislative changes and moving deadlines. Successful professionals understand employing the right tools to meet their goals. Thomson Reuters ONESOURCE™ Property Tax uses the latest technology to streamline the entire property tax process – from data management, to forms and filing, to planning for jurisdictional requirements.

ONESOURCE Property Tax is a comprehensive solution that offers end-to-end tax automation. Our integrated, centralized solution is updated in real time and maintains jurisdictional content, asset and parcel data, and automates workflow for peak efficiency in both personal and real property.

NEXT GENERATION PROPERTY TAX SOFTWARE

ONESOURCE Property Tax is designed from the ground up to create an uncompromised working environment for tax professionals like you.

ALWAYS UP TO DATE

Tax professionals are assured the highest level of convenience and accuracy with up-to-date information. ONESOURCE Property Tax is Web-based which means there are no downloads to install.

FASTER SYSTEM PERFORMANCE

ONESOURCE Property Tax software uses the latest technology to deliver system performance that will increase your productivity. For example, queries are accelerated by streaming records to your browser. Intelligent tools have also been added to minimize the steps it takes for you to complete many processes.

UNSURPASSED DATA HOSTING

Thomson Reuters sets the industry standard for reliability with our audited and guaranteed data-hosting services. Tax professionals can rest assured that their data is fully protected by our two state-of-the-art data centers.

ONESOURCE PLATFORM INTEGRATION

ONESOURCE Property Tax is seamlessly integrated through a single sign-on system with the complete ONESOURCE tax platform. Tax professionals can leverage their data from multiple tax systems across a single platform and reporting system.

EXCLUSIVE BENEFITS

ONESOURCE Property Tax has a number of exclusive benefits that make it the fastest growing property tax software with the highest customer retention in the industry. We have the only national classification system that eliminates the need to repetitively classify assets state by state.

We maintain all the forms, depreciation schedules and addresses you need in our patented content management system that is updated in real time for you. You can easily download data, such as accounts payable files, out of ONESOURCE Property Tax into your accounting systems.

Our support and maintenance is the best in the industry. Because we are an application service provider, we can log into your database and correct your problem so that you can get back to work faster.
